

For the attention of Mrs Owen's class

September 10th 2020

Annwyl riant,

Our theme for this term is 'Space'. Our work is based on the book "Pobl y Pants o'r gofod".

As part of this work the children will learn about Space, The Moon and the Planets. We will be investigating space travel and learning about astronauts such as Neil Armstrong and Tim Peak. We will also be researching light sources and shadows.

During this theme the children will have the opportunity to:

- Write a story
- Write a description
- Create an animation
- Undertake a science experiment

We will also be celebrating upcoming celebrations such as Thanksgiving, Bonfire night and Christmas.

The pupil's voice is important to us. The link below provides an opportunity for the pupils and parents to suggest their ideas regarding the theme:

Your child will need appropriate clothing in their bag for Physical Education every Thursday. Please ensure your child's name is on each item of clothing. During this period the pupils are welcome to keep their kit in a separate bag on the peg in the changing rooms.

Thank you
Mrs K.Owen
